Mobile is taking over the internet

“Nearly 2/3 of cell phone owners use their phone to go online.

One in five cell owners do **MOST** of their online browsing on their phone.”

How much of your audience/
community is mobile today?

WRONG QUESTION!

Mobile = Primary Use Case

ASSUME that MOST of your audience/community is on mobile devices, at least sometimes.

You don't have time to treat
mobile as an afterthought

Dude, where's my community?

- Households earning >\$30K/yr: **45%**
- Non-Hispanic blacks: **43%**

- People under 30, esp. 16-17
(30-49 not far behind!)
